Children's University

Dear Parents/Guardians,

With the current COVID-19 restrictions in place, the children do not currently have access to the extracurricular activities that we would usually offer. This means that they cannot gain Children's University credits in the normal way.

As you will be aware from reading previous newsletters, we have put measures in place so that the children can gain credits through creative lessons and clubs that the children attend outside of school.

Children's University have also enhanced their programme this year to give families the chance to collect credits that will count towards the children's graduations next summer. Please see below the ways in which you can do this. Half term could be the perfect time to get started!

Enrich Education - Activities/Resources - Home Learning

The Home Learning section on the Enrich Education website has a range of Children's University accredited activities that can be completed at home. The activities are broken down into different subject (Sport, Art, Science, Geography, Maths, English & STEM). New fun and engaging activities are being created and uploaded every week.

Throughout this school year, children will have the opportunity to earn over 100 credits if they undertake these activities. Children's University hours will be credited once the session/work has been completed and evidence has been provided to school's Children's University coordinator, along with the activity's individual '*Activity Stamp Code*'. The code is usually a colour followed by 4 numbers i.e. **purple5017**. The code can be found at the bottom of the activity session sheets.

To access these activities please visit:

<http://www.enricheducationuk.com/home-learning/>

In addition to the Enrich Education activities, National Children's University Trust has an online learning activities page. There are lots of validated activities for children to engage with and gain credits for.

Willow Tree
Primary School

To access these activities please visit:

Enrich Education - Online Mini Master Classes

To provide further learning opportunities, Enrich Education will be hosting a number of free, informal, fun, and engaging online Mini Master Classes that children can participate in. The Mini Master Classes will be hosted Live on their Youtube channel and will take place on Saturday or Sunday mornings. This will involve working with teachers with specialisms in a range of different subjects from Art, Crafts, Drama, Maths, English and History. Children will have the opportunity to participate in the sessions in the comfort of their own home. All of the resources for the sessions will be posted on the Enrich Education Home Learning section on the website in the Master Classes tab.

A full timetable of events will be released on the events page on the Enrich Education website here:

<http://www.enricheducationuk.com/events/>

The first master class will be held on Saturday 7th November at 10:30 this session will have an art focus.

Kind regards,

Mrs Williams & Miss Duck

(Children's University Coordinators)
